

## **Lazo Road – Town of Comox**

### **Infrastructure Notes**

COMOX VALLEY CYCLING COALITION

NOVEMBER 2020

# Lazo Loop – Locator Map

**MoTI Section** – approx. 2.6 km on **Knight Rd** between Kye Bay Rd and Glacier Greens GC

- No/Poor Shoulder on both sides of roadway
- Busy roadway - Highly used by recreational cyclists, commuters to airport, and vehicles
- Two serious cycling incidents reported to CVCCo in 2020

**Comox Section** – approx. 1.6 km on **Lazo Rd** between Simba and Kye Bay Rd

## Lack of Shoulder – Lazo Road

- Streetview of westbound Lazo Rd near Southwind Rd (Pt Holmes)
- **No paved shoulder for cyclists.** Gravel on shoulder and parking lot is in poor condition and unsafe for cyclists
- **High vehicle traffic area** also with vehicles parking for Pt Holmes **(backing out onto roadway)**

## Dangerous Conditions on Lazo Road

- Views of westbound Lazo Rd
- **Sharp edge on shoulder** is a severe hazard to cyclists
- **Blind corner** with no room for error by vehicles or cyclists

## Recommendations

- **Add appropriate paved bike accessible shoulder** to both sides of Lazo Road from Simba Road to Kye Bay R
- Coordinate work with MoTI so they can also add shoulders to Knight Rd from Kye Bay Rd to Airport
- Install **no passing signage and line paint** at portions of this route where vehicles often turn or near parking areas at Point Holmes
